BIO

Front-end web developer combines background in digital marketing with modern development training to deliver quality websites and applications built for performance. Well-versed in numerous languages and frameworks with high adaptability to work in any stage of the development life cycle.

EXPERIENCE

- Freelance Web Developer**
10/2016 - present

Design, develop, and deploy responsive, mobile-friendly websites and web apps with advanced HTML, CSS, and JavaScript.
- Razorfish**
6/2016 - 8/2016

Developed, maintained, and optimized front-end functionality. Collaborated with UX/UI designers, project managers, and back-end engineers to convert creative compositions into functional interfaces using HTML, CSS, and JavaScript.
- Bulletproof**
10/2014 - 1/2016

Managed front-end tickets for website optimization, feature updates, and bug fixes. Oversaw blog traffic, campaign performance, and SEO initiatives which increased monthly users by 15% and monthly sessions by 12%, reduced exit rate by 27% and bounce rate by 71%.
